

Likhit Ajeesh

Software Engineer-1

✉ likhitajeesh20@gmail.com ☎ 07994143044 📍 Bengaluru, Karnataka 🔗 LinkedIn 🐙 GitHub 🏠 Leetcode

PROFILE

Software Engineer (SDE-I) with ~2 years of experience building **scalable backend systems, distributed platforms, frontend applications, and GenAI-powered workflows**. Experienced in **event-driven architectures, multi-tenant systems, and low-latency pipelines**, with strong focus on **backend engineering, infrastructure automation, and production systems**, applying LLMs, vector search, and sentiment analysis for intelligent automation and analytics.

PROFESSIONAL EXPERIENCE

Exotel, Software Engineer - I July 2024 – Present | Bengaluru, Karnataka

- Built a **real-time multi-tenant conversation platform** processing **millions of daily events**, enabling **sub-second analytics** and **low-latency event-driven workflows** across multiple internal services.
- Improved **intent routing accuracy** by 25% using **embedding-based semantic matching** and **hierarchical models** within **high-throughput LLM pipelines**.
- Designed resilient **LLM/ASR orchestration workflows** with **precheck gating** and **resume-on-callback execution**, improving processing throughput and reducing unnecessary compute usage.
- Reduced **live transcript monitoring latency** by ~40% by engineering backend services for **event ingestion, enrichment, webhooks, and agent APIs**.
- Developed internal tooling for **configuration management (versioning and rollback), licensing workflows, and automated E2E testing**, improving **platform reliability** and **operational efficiency**.
- Automated **database patching and migration tracking** across **100+ tenant databases**, enabling reliable **zero-downtime schema upgrades**.
- Standardized **deployments and infrastructure workflows** using **Kubernetes, GitOps, and IaC**, accelerating **release cycles** by 3× and reducing **on-call incidents**.
- Resolved **critical call-flow** and **CRM integration issues** during **on-call rotations**, reducing production incidents and **improving stability** of agent routing and call transfer workflows in live traffic.

Exotel, Software Engineer Intern January 2024 – July 2024 | Bengaluru, Karnataka

- Developed **RCS messaging workflows** and **chatbot automation** for **BFSI clients**, supporting use cases such as **loan categorization** and **customer follow-ups**.
- Automated **internal knowledge-base workflows**, reducing **manual support intervention** by ~60% and improving operational efficiency.
- Built dashboards for **ticket analytics, RAG-based issue detection, and CSAT monitoring**, integrating **OpenAI-powered sentiment analysis** for real-time customer insights.

Softinfo Systems Pvt. Ltd, Frontend Developer Intern May 2022 – July 2022 | Remote

- Built a **responsive reporting portal** using **Vue.js** and **TailwindCSS**, adopted by **200+ employees** for internal **analytics and reporting workflows**.
- Implemented **secure authentication, onboarding flows, and dynamic dashboards**, improving **accessibility, user experience, and workflow efficiency**.
- Improved **frontend performance** and **development velocity** using **Vue Router, Vite, and modern tooling**, ensuring **maintainable and scalable UI architecture**.

EDUCATION

B.Tech in Computer Science & Engineering, VIT Vellore September 2020 – August 2024 | Vellore, Tamil Nadu
Graduated with a CGPA of 8.75

Grade XII (CBSE), Indian School Muladha April 2019 – April 2020 | Muladha, Oman
School Topper - Secured 96.2% (Science stream)

TECHNICAL SKILLS

Languages and Frameworks — Java (Spring Boot), Python (FastAPI, Celery), JavaScript/Typescript (Next, React, Vue)

Databases and Messaging — PostgreSQL, TimescaleDB, MySQL, MongoDB, Redis, pgvector, Kafka

Generative AI & Analytics — OpenAI API, LLM Integrations, Embeddings, Sentiment Analysis, Prompt Engineering

DevOps & Cloud — Docker, Kubernetes, Helm, ArgoCD (GitOps), Terraform, Ansible, Jenkins, AWS, ECR, SonarQube

PROJECTS

- Built an **Event portal** for **1800+ participants**, featuring **FAQs, roulette spin assignments, and state management** for large-scale event workflows.
- Developed a **Progressive Web App (PWA)** for ACM-VIT used by **60+ members** to manage **MoMs**, with **authentication, CRUD operations, and collaborative workflows**.

ACHIEVEMENTS

- Medallion of Honor** (Q3 FY25-26) — For delivering high unit test coverage on multiple microservices
- National-level Athlete** — 100m, 200m, 4x100m Relay, 2019
- District-level Athlete** — Badminton, Football, Kho Kho, 2018
